# PERFECTLY CLEAN HOUSEHOLD

VACUUM CLEANERS  
OVERVIEW

# Effective vacuuming → clean environment

## ALLERGIES? NOT ANYMORE

Multiple filtration captures even the finest impurities, such as dust, pollen, cigarette smoke, mites, or mold. Our products utilize the highest levels of HEPA filtration, grades 12 and 13, making them suitable for people suffering from allergies.

## DO YOU HAVE ANY PETS AT HOME?

No need to compromise anymore. Vacuums from the Animal collection, with their special attachments, are perfect for households with furry friends. The specially designed DermoPet nozzle gently brushes and helps promote faster fur regrowth and a healthier appearance. The pet hair attachment will also be helpful when vacuuming the floor.

## WHAT TYPE OF CLEANING DO YOU NEED?

If you want a handy helper for everyday light cleaning, choose the 2-in-1 stick vacuum. If you have a larger household filled with carpets, go for a vacuum with a turbo brush or a versatile vacuum with a wet cleaning function.

## MULTI-PURPOSE ACCESSORIES

Each home is uniquely furnished, and the lifestyles of its residents vary. Thanks to a wide selection of accessories, no surface will no longer be an obstacle for you. With the help of special nozzles and brushes, you can comfortably and gently clean your floor, furniture, and other surfaces.
