Catalog of Small Domestic Appliances

75

## *Just one word – eta.*

Our country, marking 100 years of existence this year, has gone a long way and ETA has been there to witness it. It watched the fate of Czech households just by a quarter of a century less. ETA vacuum cleaners cleaned carpets which were walked upon by communist big shots and courageous dissidents. Our hand table blenders in an unforgettable design remained working away on kitchen worktops long after the Velvet Revolution. ETA is connected with memories of hundreds of thousands of people. One time it was the delicious smell of ginger-bread from the oven, another time the nervousness when ironing a shirt for a school-leaving exam.

To celebrate the 75 years of such moments together, we have prepared a limited collection of retro appliances STORIO. We do not forget about the future either and therefore our catalogue contains a number of new products which use modern smart technologies and feature the best parameters.

Enter the next quarter of a century with ETA and live with it through moments you will not forget.

# 75 years of the brand

**1943**

It all started with irons. Jan Prošvic laid the foundations for the production of electrical appliances in Hlinsko.

**1952**

Stanislav Lachman became the chief designer of the brand. He designed iconic appliances which were an integral part of equipment in a majority of households in Czechoslovakia and went down in the history of design.

**1956**

Beginning of the table blender era which has not finished yet. The legendary Pragomix Special saw the light of the world.

**1956**

ETA Pluto. First one of the hundreds of types of ETA vacuum cleaners with their unique name.

**1960**

Elektro Praha until that time. ETA ever since.

**1973**

ETA 211 iron – unique in the world. Square iron with the largest soleplate in the world.

**2012**

Extended warranty kicked off.

**2016**

The ETA Gratus food-processor – the best-selling food-processor in the Czech Republic for the fourth time.

**2017**

The most trusted brand of small household appliances in the Czech Republic for the second time in a row.

**2018**

We are celebrating the 75-year anniversary with the limited STORIO collection.

*eta*

**1993**

Grand circles with the owners nearly resulting in the brand extinction.

**2008**

After nearly 50 years, it was time for a new logo.

# *Storio collection*

An overview of parameters of the individual appliances within the ETA STORIO collection can be found on pg. 27, 62, 68.  
For more information about fridges, please visit [www.eta.cz](http://www.eta.cz).

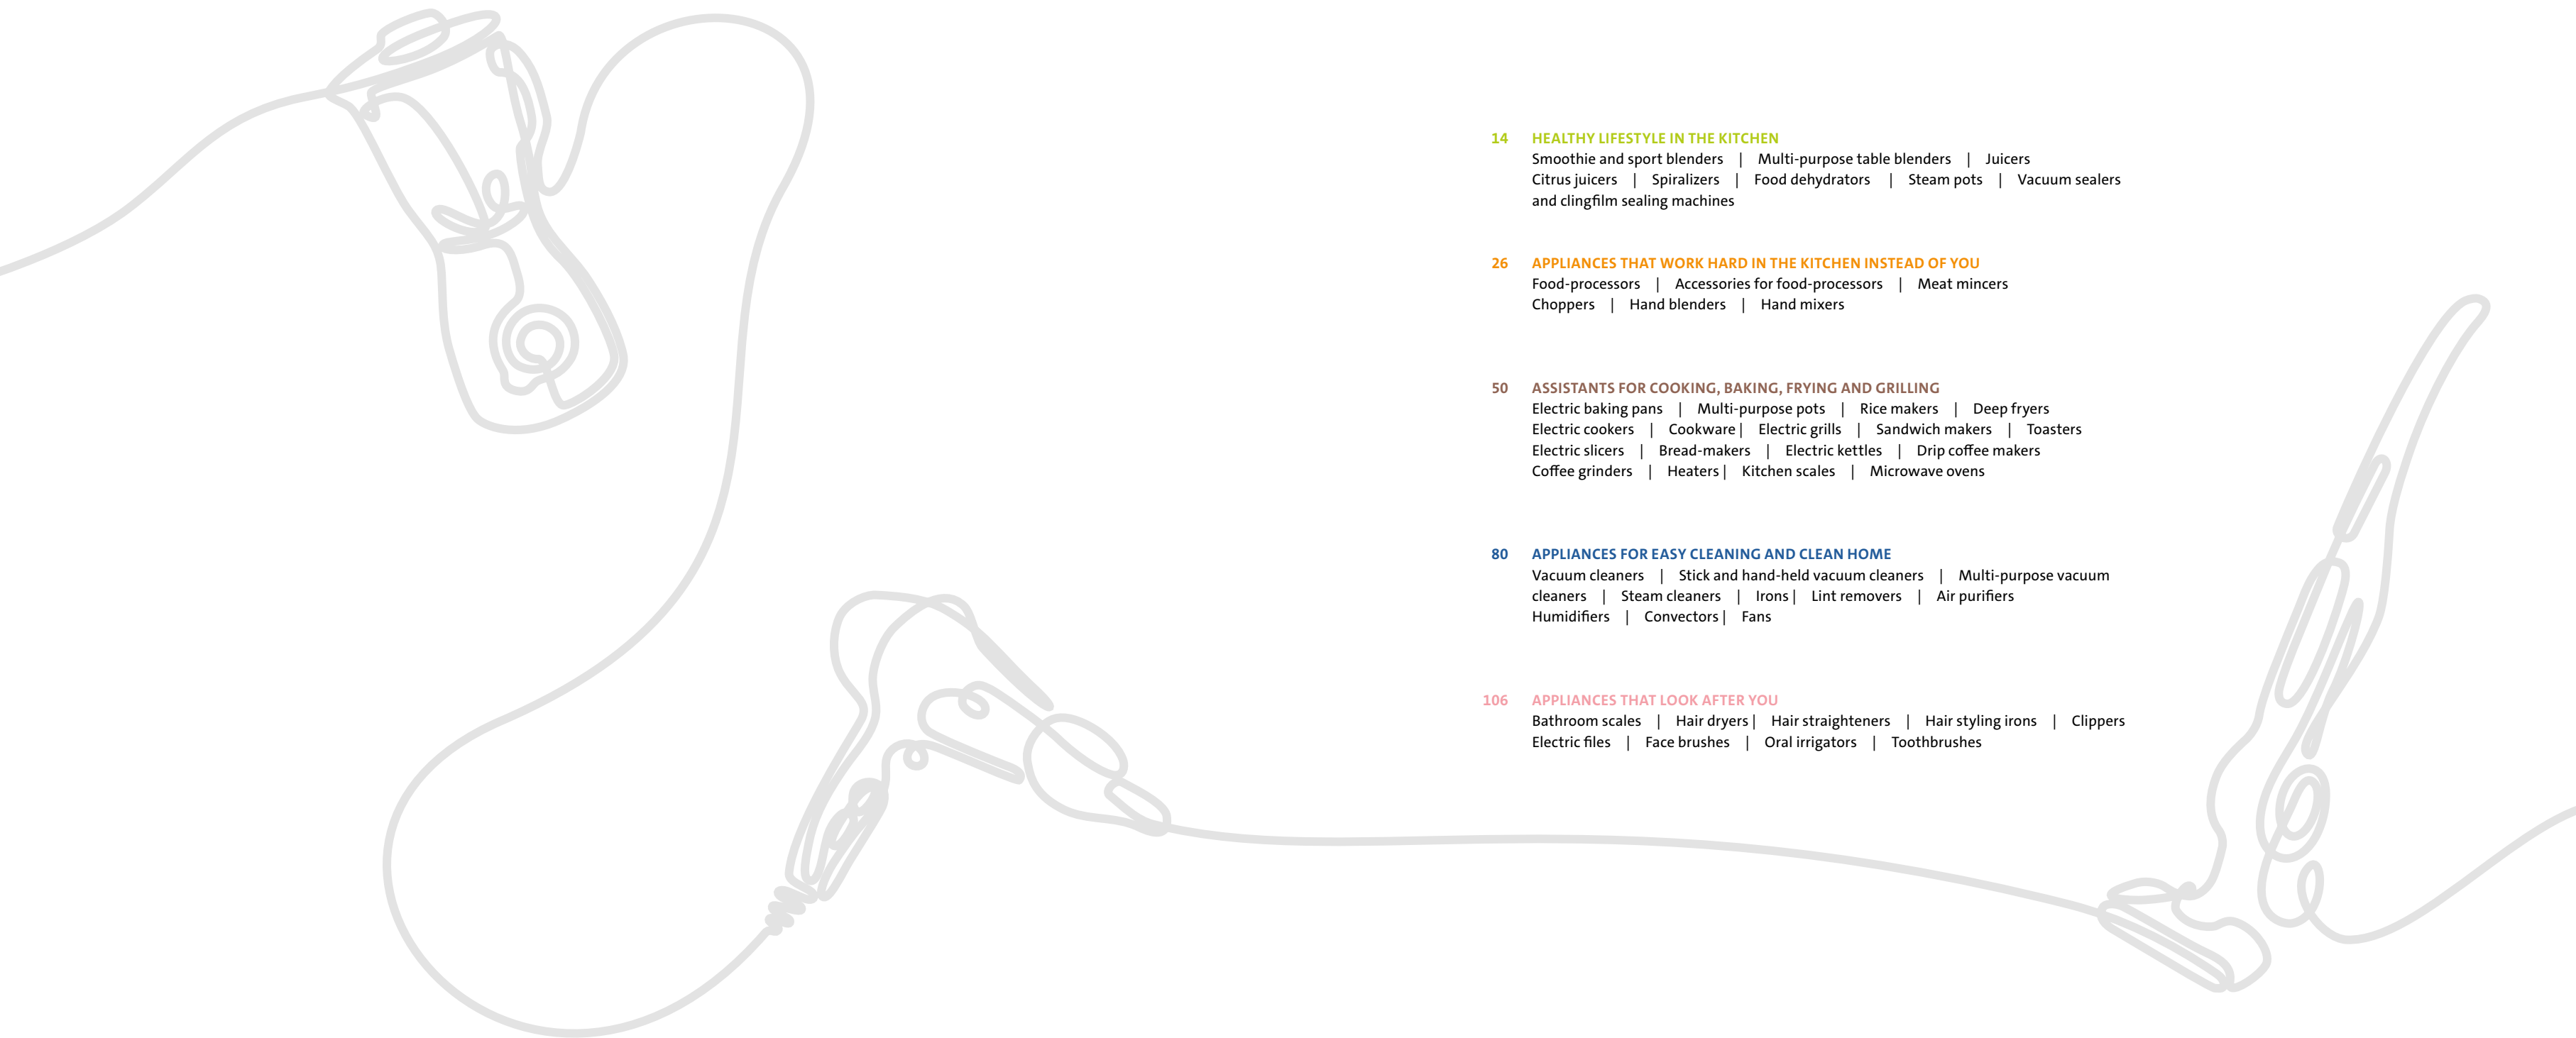

# *Fenité collection*

All products within the Fenité collection can be found in the  
“APPLIANCES THAT LOOK AFTER YOU” section on pg. 106.

**14 HEALTHY LIFESTYLE IN THE KITCHEN**

Smoothie and sport blenders | Multi-purpose table blenders | Juicers
